FILM ART

The background of the left page is a dark gray to black gradient. It features a complex, abstract pattern of white dots connected by thin lines, creating a grid-like structure that flows and undulates across the page, resembling a digital or mesh-like surface.

GOLDEA

The film pressing process is processed into various linear types and then covered with PVC films with various brightness, colors and textures, so that the products are rich and colorful. Create more choices for consumers.

The bathroom vanity is available in 6 width sizes, from 60 to 120 cm wide. It is rightfully the sink with the most extensive options. The bathroom cabinet can be combined with all bathroom environments.

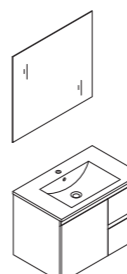

Bathroom

GOLDEA uses the same advanced PU painting techniques that gave the world the beautifully detailed lacquer art works to create elegantly patterned fixtures for the bathroom, including sinks and toilets, even faucet handles. GOLDEA sinks are simple but not ordinary, such as Glossy White Ploy marble Bathroom Basin is one of your best choices.
